Frontend / TYPO3 Developer

I began my work as a **Frontend developer** and for a good part of the first year that was my main focus. In parallel I was learning TYPO3 CMS and in that same period, I also performed the role of **TYPO3 integrator and developer** where I wrote couple of smaller PHP / Extbase extensions for various projects. Also, on several occasions I was given the part of a **Project lead** on several website which I saw through until their successful launch. Towards the end, I participated in **client meetings, project conception and mock-ups / wireframes sessions** and I did a whole lot of other miscellaneous tasks.
